

MODEL - SSBH-300U

(Threaded to NPT or BSP)

FUNCTION:

Reduce pipe wall vibration and noise transmission.
Prevent pipe fatigue, ease alignment and reduce equipment connection stress.

CONSTRUCTION:

Annular close pitched corrugated sealmass hose body with interwoven overbraid to prevent elongation while applying inward radial pressure to the body for higher pressure capability. Threaded or flanged ends as required for fitting to pipe.

WORKING PRESSURE: 25 Kg/m³ / 16 Kg/m³

WORKING TEMPERATURE: -50°C TO 250°C

S.NO.	NOMINAL BORE	TOTAL LENGTH	OFFSET
	mm	mm	mm
1	15	300	20
2	20	300	20
3	25	300	20
4	32	300	18
5	40	300	16
6	50	300	15
