Climate Control Awards

THE ISOLATOR

Welcome to the December edition of The Isolator, the monthly newsletter from Kinetics Middle East LLC. In this edition, we look at solutions that we offer for a Data Center project. We pay tribute to our dear colleague Engr. Amr who passed away last month.

We also look at the some of the main awards we won, specially the Supplier of the year award in the HVACR accessories category from Climate Control awards which is known as the Oscars of the HVAC industry.

ETISALAT DATA CENTER, ALAIN

PROJECT UPDATE

The project involves the construction of a telecommunications data center complex covering an area of 1700 square meters. The development will consist of 2 floors and will contain 4 rooms. The overall IT power will be 4MW while the average density per rack will be 6kW.

Kinetics Middle East was engaged by M/s. Al Hasoun Sejour, the MEP Contractor of the project to design and supply the Vibration isolators, Seismic restraints, Flexible connectors, Expansion Joints, Stress analysis and support design etc.

KINCUP DISMANTLING JOINTS

PRODUCT HIGHLIGHT

KINCUP Dismantling Joints are used for dismantling the equipment's or fittings or pipe sections fitted in the pipe line. They are an essential aid during the installation and removal of pipe sections and valves. Without a dismantling joint offering longitudinal adjustment, it is almost impossible to insert a valve exactly into a pipe section.

Thanks to this adjustability of the dismantling joint, the valve can be fitted next to the dismantling joint, and the dismantling joint can be set to the exact length required prior to being securely connected to flanges.

ENGR. AMR MOHAMED EL SAYED

09/07/1992 - 15/11/2019

It is with a heavy heart we share that Engr. Amr Mohamed El Sayed, aged 27 passed away last month. Amr had been fighting prolonged illness for the past 2 years and he fought hard! Words can't express the profound impact Amr had on our lives and so many others.

Amr who graduated from Ain Shams University, Cairo in Bachelor of Science in Building Engineering was leading the Acoustic department in KME.

Amr was and will forever be a part of the KME family. Amr was one of those people that you feel blessed was part of your life. He epitomized grace, gratitude and caring every day. Without exception, everyone who Amr interacted with was a better person because of him. Amr was an amazing person... as a colleague, friend and we will miss him dearly.

KNC SALES CONFERENCE, PUNTA CANA

Our principals, Kinetics Noise Control hosted the bi-annual sales conference which was held in Iberostar Grand resort, Punta Cana, Dominican Republic. Rajan K and Nithin George represented Kinetics Middle East and accepted the awards for 6th place overall sales achieved from Kinetics Noise Control. Kinetics Middle East was also no. 1 in international sales for 2018 and 2019.

In the event which spanned over 5 days with lots of activities and meetings, Kinetics introduced the latest product offerings for the industry that are under Research & Development stage for all the representatives who attended.

KINETICS MIDDLE EAST AWARDED HVACR MANUFACTURER/SUPPLIER OF THE YEAR

Kinetics Middle East LLC was awarded the HVACR Manufacturer/Supplier of the year 2019, in the 9th edition of Climate Control Awards which was held on 26th November in Roda al Murooj, Dubai. Over the years, Climate control awards have stood for an honest appraisal of efforts to safeguard people and planet and to ensure good health and support for industries and other wheels of the economy. This year's awards were no different as Kinetics Middle East grabbed the award for the supplier of the year in the HVAC accessories category jointly with Leminar Airconditioning.

The guest of honor for the event was the H.E Franz Michael Skojld Mellbin, Ambassador of Denmark to UAE and the chief guest of the event was Ms. Hind Almutawa, Director of Productivity and Demand side Management Dept, Ministry of Energy & Industry, UAE. The awards were monitored by members of the jury which consisted of top consultants and clients from the industry and was monitored and audited by Bin Khadim and Radha & Co.
